

Client Case Study: Royal Salt Ltd

Client	Royal Salt Ltd
Sector	Salt Manufacturing & Processing
Challenge	Undertaking an Environmental Impact Assessment (EIA) for a major plant expansion project, the lead consultant required specialized expertise for the air quality and noise baseline component.
Solution	Ecobinder acted as co-consultant, conducting baseline monitoring of air quality, noise, and meteorological parameters at 14 sampling locations (including a control point), using calibrated equipment and FMEnv-compliant methods.
Outcome	Our results were integrated into the lead consultant's final EIA report, helping secure regulatory approval and providing a solid basis for impact prediction and mitigation planning.
